WHY CHOOSE Broil King®

Broil Kings are designed to eliminate typical barbecue problems.

So you can enjoy more time socialising with your friends and family, sharing delicious BBQ food they'll absolutely rave about.

'No large gaps' cook box for heat retention

Reversible cast iron grids for searing & basting

Dedicated burner for flame-kissed rotisserie

Side burner for sauces, veges & more!

Flav-R-Wave™ system vaporises fats & juices into flavour

Unique patented Dual-Tube™ burners for even heat

Durable cast aluminium or stainless steel cook box

*Porta-Chef and Gem models have standard tube burners. Features like rear rotisserie burner, backlit control knobs, side burner and condiment shelves vary by model.

MOUTHWATERING FLAVOUR.

Reversible grids for searing & basting

- Use the pointed side to create perfect steakhouse sear marks
- Use the grooved side to collect marinade so you can continuously baste your meat

Flav-R-Wave™ system for authentic BBQ flavour

- Underneath the grids sits the phenomenal Flav-R-Wave™ system
- It vaporises all the delicious fats and juices as they drip down, infusing flavour and moisture back into your food

Easy clean

- Due to the Flav-R-Wave™ system vaporising fats and juices, very little residue makes it into the cook box or fat tray. It's why the fat trays are so small!

BUILT TO LAST.

Made in North America, backed by superior warranties

- Constructed from high quality materials
- Supported by generous warranties and a NZ-based support team

OPTIMUM COOKING CONDITIONS.

Incredibly hot

- Broil Kings retain heat because there are no large gaps in the cook box for wind to enter or heat to escape
- Designed for lid-down cooking to keep heat in and to infuse food with more moisture and flavour

Even heat distribution

Achieved through Broil King's patented Dual-Tube™ burners, which feature:

- Unique inner tube that ensures gas flows and ignites evenly along the entire length of the burner for even heat front to back
- Two rows of flames (one on each side) instead of the typical single row on top to create even heat side to side and to prevent fats and juices dripping into the burner ports

No hot or cold spots

- Because the burners produce incredible heat, and distribute it evenly, you can cook anywhere on your grill surface
- No more food shuffling. No more inconsistent results

BBQ at home or away

Ready to go in seconds, the Porta-Chef™ series delivers Broil King's legendary cooking system and flavour along with the added convenience of portability.

With detachable lock-in legs and collapsible side shelves, the Porta-Chef™ is designed for adventure and on-the-go BBQ cooking. Enjoy mouth watering BBQ food from anywhere, including the boat, the bach, the campground or your favourite picnic spot.

Don't let the size fool you, the Gem™ 310 comes with three burners and delivers big flavour. With similar features to Porta-Chefs but without the portability, it's the perfect compact BBQ for apartment living or smaller outdoor spaces.

Easy going BBQ'er

Four burner barbecues are the go-to choice for many regular grillers. The Crown™ series provides ample cooking space for your sausages, steak and roasts, with the 490 model coming with a rotisserie kit and side burner for the more adventurous BBQ cook.

Crown™ BBQs have a higher heat output and more cooking area than the Monarch™ range and feature a more heavy duty design. You'll also enjoy some of the extra touches, including ample cabinet storage and heavy duty swivel castor wheels.

Everyday BBQ'er

The first step into Broil King's premium range, the Baron™ series provides a sleeker, more heavy duty package and features that set it a cut above the Crown™ series. As well as Broil King's legendary performance cooking system for great BBQ food every time, the Baron™ series grills come complete with stainless steel fold down side shelves, illuminating control panel lights and the deluxe stainless ignition system.

The Baron 420 model is made for the grilling purist. Built to last with four stainless steel Dual-Tube™ burners, along with Broil King's unrivaled Flav-R-Wave™ cooking system and heavy duty cast iron grills. Opt for the Baron 490 or five burner 590 model for cooking perfect rotisserie meat and delicious dishes on the side burner.

COOKING METHODS

1 Direct Grilling

The direct grilling method is quite simple; it involves cooking the food on the grids directly over the flame. We recommend direct grilling for most single-serving items such as steaks, chops, fish, burgers, kebabs and vegetables, or any other quick-cooking foods.

For the best results: (fig 1)

1. Preheat the grill on HIGH for 5-10 minutes.
2. Remove any debris on the cooking grids with a wire grill brush.
3. Spray or brush on vegetable oil to prevent food from sticking.
4. Reduce the heat to your required temperature.
5. Place whatever you're cooking on the grids.
6. That's it. We told you it was simple.

2 Indirect Method

The indirect method of grilling is a technique for cooking larger cuts of meat such as roasts or poultry. As the name implies, the food is not grilled directly over the heat but by hot air circulating around the food. This set up means there is no need to turn or baste the food. The result is delicious, worry-free barbecuing with little chance of flare-ups.

Indirect: Drip Pan Method (fig 2)

Juices and drippings fall and mix with the contents of the drip pan. This mixture will vapourize, impart delicious flavours and ensure a moist and succulent roast, chicken or turkey.

To use the drip pan method:

1. Remove the grids and place the drip pan on top of the Flav-R-Waves™.
2. Pour water or other cooking liquid, such as fruit juice or wine, into the drip pan. Continue adding liquids while grilling, making sure the drip pan does not go dry.
3. Replace the cooking grids.
4. Preheat the grill on HIGH for 10 minutes then adjust the heat to MEDIUM or MEDIUM/LOW.
5. Spray or brush the grids with cooking oil, then place the meat directly on the grids above the drip pan.
6. Close the lid and sit back and relax as your food becomes infused with delicious flavour.

Indirect: Burner Method (fig 3)

1. Place a drip pan over the Flav-R-Waves™, under the cooking grids, on the side of the grill where you will be turning off at least one burner.
2. Preheat the grill on HIGH and then turn off at least one burner.
3. Brush or spray the cooking grids with cooking oil.
4. When grilling beef or pork sear the meat on all sides using the lit side of the grill and then transfer it over to the unlit side.
5. Regulate the heat setting to maintain your desired temperature (generally MEDIUM).
6. This method is wonderful not only for roasts but also for thicker steaks, chops and bone-in cuts of chicken.

3 Rotisserie Method

The constant turning of the meat while cooking allows it to self-baste, resulting in exceptionally moist and tender meals.

Helpful hints: (fig 4)

1. Fix the meat securely in the middle of the spit.
2. With poultry, the wings and legs should be tied in tightly to avoid burning.
3. Place a drip pan under the meat to collect extra juices for making gravy.

4 Planking

Another unique and delicious way to grill food is by using a wooden plank. This is a surefire way to get delicious results and wow your dinner guests. The smoke created from the plank sitting directly above a lit burner infuses the meat with unsurpassed grilled flavour.

Using a plank is simple: (fig 5)

1. Soak it in water for at least an hour and pat it dry.
2. Pre-heat your grill on HIGH for 10 minutes.
3. Coat one side of the plank with olive oil then place the seasoned meat on it.
4. Place the plank on the grill directly over the lit burner and reduce the heat to MEDIUM-LOW.
5. Cook the meat to your liking.
6. Cedar planks are ideal for salmon but don't be afraid to try other meats with it.

NOTE

Always barbecue with your lid closed to maintain a constant temperature and achieve the best possible results.

PERFECT STEAK

THE PERFECT STEAK™

Cooking Method

Preheat BBQ to 250°C. Brush grids with olive oil and proceed as directed.

Meat Thickness		Heat Setting	Time Per Side				Total Time
4 cm	2.5 cm		A	B	C	D	
	Rare	Med/High	1¾	1¾	1¾	1¾	7 minutes
Rare	Medium/Rare	Med/High	2	2	2	2	8 minutes
	Medium	Med/High	2¼	2¼	2¼	2¼	9 minutes
Medium/Rare	Well	Med/High	2½	2½	2½	2½	10 minutes
Medium		Med/High	3	3	3	3	12 minutes

NOTE

Bone-in cuts take slightly longer. Times may be affected by thickness of meat and temperature of meat prior to cooking. Bring steak close to room temperature before cooking. Always rest steak before serving.

BETTER FUEL FOR BETTER FLAVOUR

The perfect barbecue starts with the right kind of fuels. Broil King's Premium Grilling Pellets are specifically designed to work with the Broil King® Pellet series BBQs. Our pellets are 100% natural and contain only premium wood with no fillers, oil additives, or binding agents. Available in a variety of blends, these premium pellets offer optimal cooking performance and great flavour. Our source woods are mixed before pelletizing, ensuring that each pellet contains the intended blend. This method allows for more repeatable cooking performance with a consistent burn and smoke flavour.
